

How to Get Your FREE YouTube API Key

In this tutorial you'll learn how to get your FREE API Key from YouTube, which you will need in order to use the features within TubeSerp.

The FIRST step is to have a Google Account (which is also FREE).

If you do NOT have a Google account, then please go to Google.com
Click "Sign In" from the top right corner, and then click on "Create Account".

Follow the onscreen instructions to create your account.

Once you have got your Google Account – Sign in to it and then go to this URL here...

<https://cloud.google.com/>

Then follow the instructions (and screenshots below)

Click on one of the "Get Started" buttons, as shown below

The screenshot shows the Google Cloud homepage. At the top right, there is a navigation bar with a search icon, 'Docs', 'Support', 'English', 'Console', and a profile icon. A blue button labeled 'Get started for free' is highlighted with a red arrow. Below the navigation bar, a green banner reads 'Google Cloud Next '20: OnAir Explore curated content on demand, every Tuesday. Register now.' The main content area features a large heading 'Solve more with Google Cloud' and a sub-heading 'Meet your business challenges head on with our computing services from Google.' A blue button labeled 'Get started for free' is circled in red and pointed to by a red arrow. To the right, a carousel slide shows the Verizon and Google Cloud logos with the text 'Verizon uses Contact Center AI to delight customers.' Below the carousel, there are four columns of text describing various Google Cloud services: 'Modernize your workloads on world-class infrastructure', 'Protect your data with multilayered security', 'Drive decision-making with intelligent analytics', and 'Adopt hybrid and multi-cloud without vendor lock-in'. At the bottom, a dark grey section titled 'Leading companies trust Google Cloud' features a cookie consent banner on the left and three industry-specific statistics: '7 / top 10 Telecommunications', '7 / top 10 Media & entertainment', and '7 / top 10 Retail & CPG companies'.

Check your account is selected and tick the “checkbox” for their “Terms of Service”. Then click on the “Continue” button, as shown below.

You can SKIP this screen

Click on “APIs & Services” and then choose “Credentials”, as shown below.

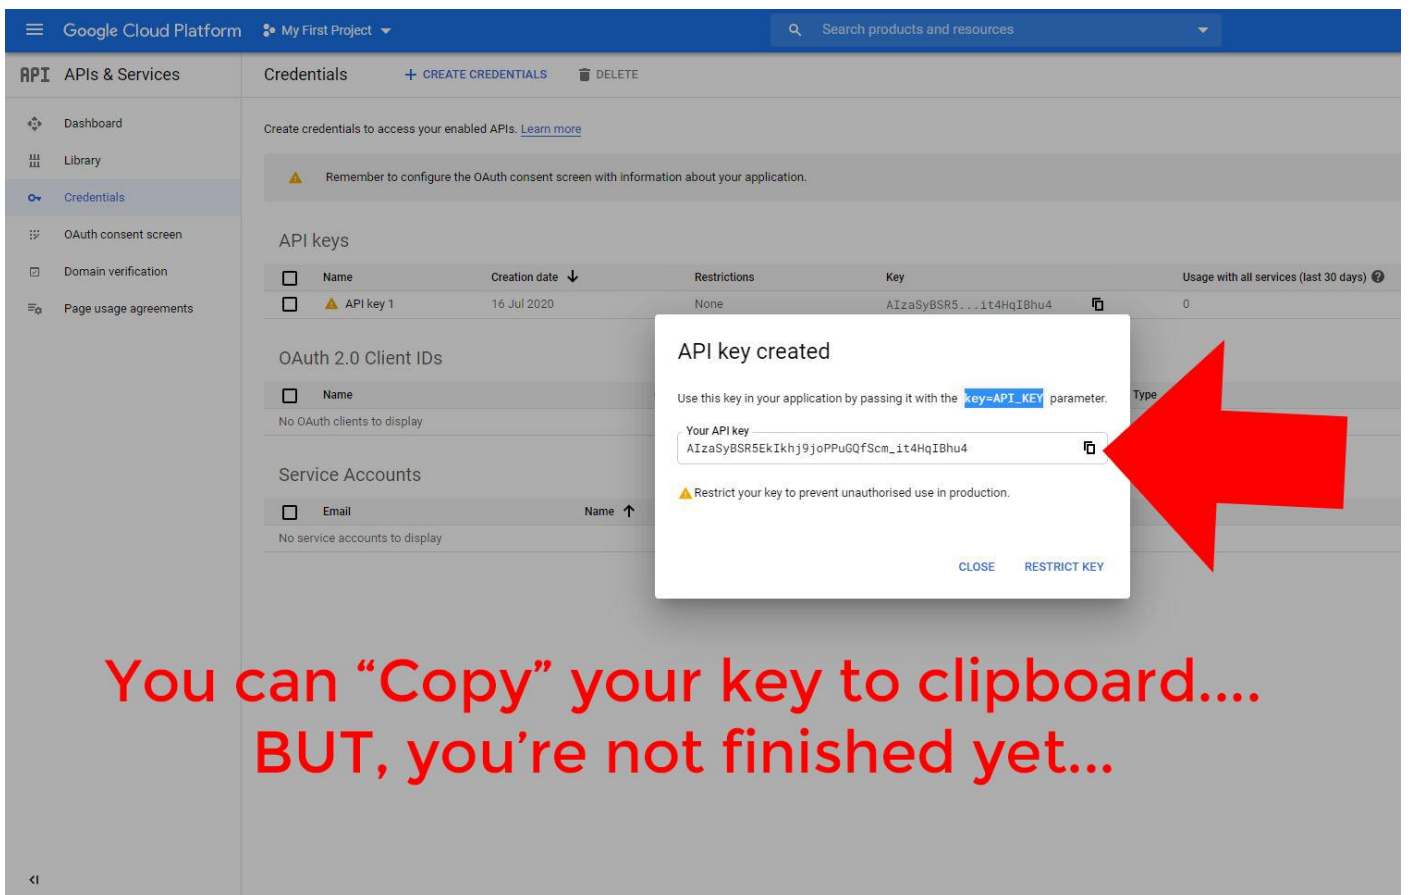

Click on “Credentials” and then select “API Key” from the dropdown menu, as shown below.

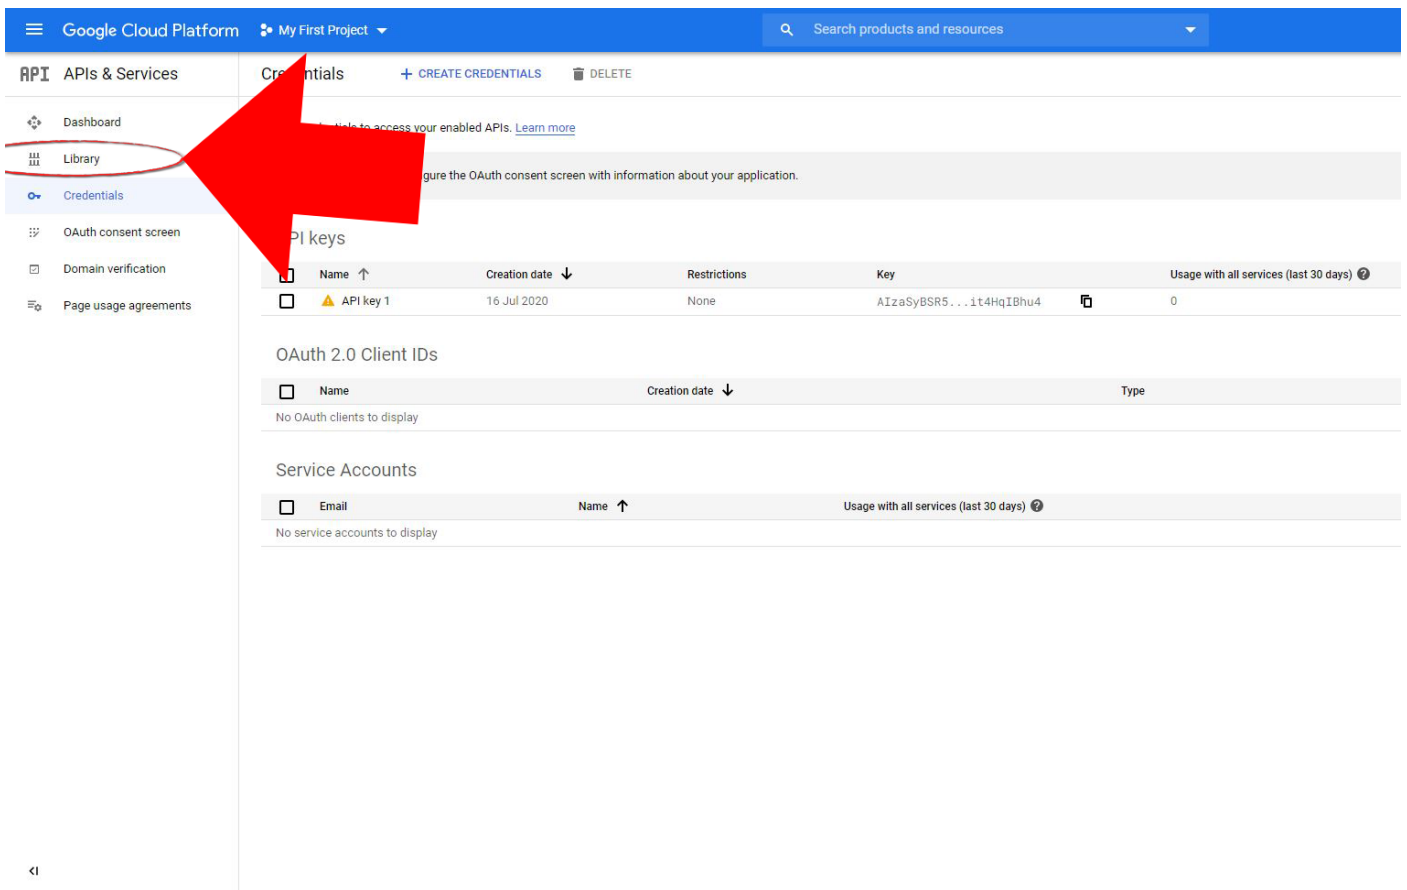

**Click on “Credentials”
and then select “API Key”
from the dropdown list**

You can click the small “Copy to clipboard” icon as shown below, but you’re not quite finished yet.

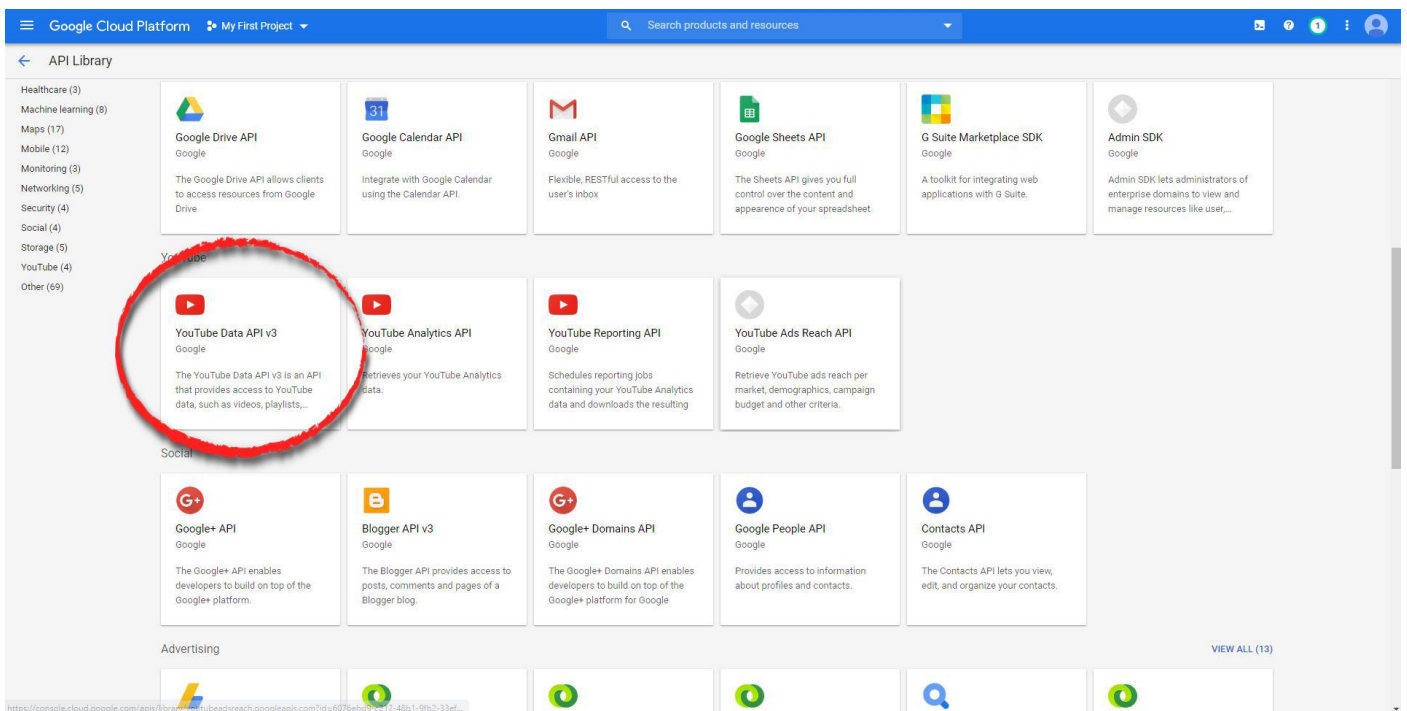

**You can “Copy” your key to clipboard....
BUT, you’re not finished yet...**

Click on "Library" from the left hand navigation menu, as shown below.

Scroll down and click on "YouTube Data API v3", as shown below.

Click on “ENABLE”, as shown below.

The screenshot shows the Google Cloud Platform interface for the YouTube Data API v3. At the top, there's a blue header with 'Google Cloud Platform' and 'My First Project'. Below that, a search bar says 'Search products and resources'. The main content area features a red play button icon, the title 'YouTube Data API v3', and the provider 'Google'. A description states: 'The YouTube Data API v3 is an API that provides access to YouTube data, such as videos, playlists,...'. Two buttons are visible: a blue 'ENABLE' button and a white 'TRY THIS API' button with an external link icon. A large red arrow points to the 'ENABLE' button, and red text to the right says 'Click on “ENABLE”'. Below the buttons are tabs for 'OVERVIEW', 'DESCRIPTION', and 'SUPPORT'. The 'Overview' section contains a description, 'About Google' (Google's mission), 'Tutorials and documentation' (with a 'Learn more' link), 'Support' (with a 'Learn more' link), and 'Terms of Service' (with a note about license terms).

Click on “Credentials” and you’ll see your API Key on the screen, with a small “Copy to clipboard” icon next to it.

You can copy and paste that API Key into your TubeSerp settings, and you’ll be ready to go!!

Do Not share your key with other people. If you think someone else is using your API Key and FREE daily quota, you can regenerate your KEY at any time from that same “Credentials” page.

Best of luck! And enjoy using TubeSerp.

Thanks

Andy Black
